The Bumpy road to being a successful entrepreneur. I'm so excited to be the international best-selling author of "The Boss Weight Loss" voted best diet book a Los Angeles. In 2008 I launched my first fitness DVD The Skinny Jeans Workout right before the economy took a nose dive & nobody was buying DVD's anymore. Even with shady distribution deals I was featured in Target.

I began my career as an online executive wellness coach in 2016 it has taken 5 years and a pandemic

but my hard work is paying off .I know what they say is true about adversity of creating character because I've got character in spades. I think it's important for my clients to understand It's not about perfection -we all fall down, we all makes mistakes. It's about believing in yourself and learning from your past, always growing, always evolving. If you're never scared, embarrassed or hurt, it means you never take chances. And in the end what we regret at the most are the chances we never took.

I have so many goals and ambitions, all I can say is that I can achieve my dreams and make it come true.

**Neasha  
Cain**

My name is Neasha but I go by firecracker and I have many goals and dreams one of the biggest ones being me as a motivational speaker for sickle cell disease and stopping the stigma that is on sickle cell warriors. Sickle cell is an inherited disease where red blood cells contort into a sickle shape. The cells die early, leaving a shortage of healthy red blood cells (sickle cell anemia), and can block blood flow causing pain which is called a sickle cell crisis . Sickle cell is also my biggest challenge in life because it affects my body in many ways . Another goal of mine is to be one of the biggest authentic influencers/ models of all time I wanna make a mark on the world and take

care of my family . I wanna walk a runway and be in magazines . Some achievements I've done in my life would be being the first of my moms kids to graduate high school and get married . Always staying true to myself no matter the illness I have no matter what sickle cell throws at me I always come back strong and more powerful . I named myself firecracker because I'm very creative ,spontaneous , outgoing, unpredictable like a firecracker on the Fourth of July it's a mystery of what you will see and so am people never know what they will get I'm a lot of things you just have to get to know me .

# Rhyana

Hey, my name is Rhyana. I am 16 years old. I attend a dance studio in Myrtle Beach where I have been dancing for 7 years. One of my goals is to go to a college, preferably in Florida. When I get there, I plan to attend for masters in business but I also want to be a professional sideline dancer. I love to attend dance conventions because I get to learn new dance styles from different teachers. I have accomplished many things but some key things are getting an award for having the most spirit on my cheerleading team and also for having the highest jumps in my studio. I enjoy

dancing because it's something fun to do, but it also teaches you how to be a leader, and you can make many friends that also enjoy doing what you do. When I first started dancing, I never thought I would make so many friends that would eventually become my family. I not only teach but also dedicate all of my time to dance because it has taught me discipline, leadership, and how to communicate with my peers better..

Dancing is a form of expression. Nothing makes me happier than being on stage. This year, more than any year before, I feel I have grown as a dancer. I've been dancing since I was two years old. My dream is to go to Julliard, and to someday dance on a Broadway stage.

I'm a hard working person. I love to train and play hockey. I would like to play in the NHL one day but also be big as a model or actor. I want to be a role model and show other people that anything is true, you just need to believe in yourself.
