Spunky out going california girl who lives in Lake Elsinore but grew up in orange county. Passions include singing, dancing, and acting. Took dance classes for 8 years, which consisted of tap, lyrical, ballet, jazz, and hiphop. Hiphop was my favorite, because it allowed me to express my sassy style and personality. When I was thirteen I did Barbizon classes which sought me how to runway walk, and present myself in front of television. Ever since I was a little girl my sister and I would put on little christmas shows for our family. We would sing and dance to christmas songs. Our family loved every moment of it, it would really bring us all together. When I got to high school I was in several theater productions. My overall favorite was CATS the musical. I was Tess the cat and I loved it. Being able to sing and dance in front of thousands of people was truly amazing. When I turned fifteen I got nominated for Ms. San Bernardino pageant. # Tiffany Champagne

Tiffany Champagne is a Model-Actress originally from NYC but enjoying life in Hollywood.

She comes from a conservative upper-class upbringing and has an education in the Arts and Acting fields.

Having been raised in New York City, she socialized with the models that were going to the same private school in NYC. "Tiffany: I was shopping in Bloomingdale's with them at 14 years old and buying Chanel purses. Their lifestyle so impressed me, and everyone around me suggested I try modeling I was signed up to a big NYC agency where I started to do Modeling for junior fashion. Wearing lots of make-up for photo-shoots, I got to be a blonde and looked 18 years old. Of course, I pushed the limits. My parents were somewhat shocked at my make-up and

grown-up looks, but I knew this was what I wanted. It was the very best time of my life, and I was addicted to it and knew it was what I wanted to do."

It was so much fun wearing all the makeup at an early age and being a junior model.

Tiffany knew she wanted to be in the creative fields and went on to Art College and studied Acting with some famous acting schools in Hollywood. She is a published model and has acting credits to her name.

In a few years, my family moved to California where my dad was transferred to a high position.

I went to prominent acting classes and studied acting which led to some acting projects.

Sabrina is originally from Pensacola, FL. Growing up by the beach was a blessing because the beautiful scenery draws in many photographers from all over the country, gracing her with ample opportunity to work with new and inspiring artists. Sabrina is a mixed race model being half Asian (Korean) and half Caucasian. A psychology major at the University of West Florida, she is working towards obtaining her Bachelor's Degree.

**Achievements:** 2018 brought Sabrina a whirlwind of attention. She has been published in more than 6 magazines this year with

a steady-growing following on Instagram. In this year alone, she has traveled to the Dominican Republic, the Bahamas, and Costa Rica to shoot among the gorgeous scenery alongside other up-and-coming and professional models. With only a few months left until 2019, she is persistently creating content with the goal of landing a cover before the end of the holiday season.

"I have had both feet in the modeling game for about a year now and WOW: I have seen so much growth within myself both physically, mentally, and emotionally in this year. It all started with one shoot. I highly

recommend that everyone link up with a photographer they admire and model in their own photoshoot at some point in their lives. It was an incredible self-esteem booster, especially the support that came to follow. What many of you may not know about me is that I have been a singer for 15 years. A choir girl with a couple musicals under her belt, I have always loved performing. And yet, I have only recently found the courage to share more of my art and passions through musical media. To that I, again, owe credits to the positive experiences I've had from modeling."

Techi Martin is a full time model currently living in Southern California. She was born into a life of travel. Both her parents were missionaries following a higher calling to serve mankind abroad. During one of their missions to the Philippines, Tech was born. Tech gets her namesake from the famous Filipina model, Tech Ayagbayani.

At age 3 she moved to Japan and began her modeling. At 7 years her parents were called to Argentina where she learned to speak Spanish. Turning 10 Tech's family moved to Brazil. She recalls, "I loved the Brazilian spirit and the way they expressed themselves, not holding back"

At 13 years old they moved to Morelia Michoacan, Mexico, But the traveling does not stop there.

Once she turned 17, Tech felt a calling of her own. She joined the US Army, working as a secretary, stationed at Fort Riley, KS. She was deployed to Iraq, for Operation Iraqi freedom 3. After fulfilling her service with the Army, Tech decided to take some much-needed time off. She traveled to Maui, Hawaii with her cousin.

In Hawaii she learned how to diet and exercise, grow vegetables and take care of chickens. After spending 3 years in Hawaii and traveling to Australia, Ireland, Italy, Spain, and Costa Rica it was time to go home. Tech and her cousin went home to California to work and save up for traveling expenses. "We decided to hitchhike from Costa Rica to Baja California, to save money"

Tech remembers 7 days of traveling in semi-trucks, and 7 nights of roughing it. "We nearly crossed a border line each day of our trip." says Tech.

"I remember crossing the border into the states, seeing such a difference of how clean and organized it was with no trash on the road".

At the age of 25 Tech decided to become a missionary herself. She served in Ensenada, Baja California. From Ensenada she moved to Guadalajara, Mexico and then Reynosa, Mexico, and traveled to Canada. Always being self-supported by selling Christian materials, such as scrolls, bibles, ect.

After spending time as a missionary and a traveling model, Tech's next goal was to become a mother, "I've always wanted 10 kids of my own growing up."

"It took me forever to find the right partner, and I had to kiss a lot of frogs to find my prince. It's kind of like modeling, I had to shoot with a lot of photographers to find the right ones for me, who would capture my images best."

Tech is now a mother of 2, "My kids have taught me patience and how the best things in life take time, especially the ones that are worth it. Having a daughter has changed my life and made me work harder so I can have a good career and be a good example to show her that anything is possible. If you believe it, you can achieve it. I still have a long way to get to the top. But like a journey with a thousand miles, it begins with a single step. I walk with faith. I work hard. I am determined."
